RECEIVED

JAN 19 2000

Dear Wendy R. Dixon:

The following is a list of concerns that my wife and I have about a repository being placed at Yucca Mountain.

- ◆ Studies have shown that the Yucca Mountain Nuclear Waste Repository is being built on a known fault
- ◆ No absolute guarantee's of safety in the transportation of nuclear waste through the Las Vegas valley
- ◆ The water table at Yucca Mountain has risen in the past and most likely will again in the future
- ◆ Our family, friends and community should not be endangered by a project funded by our own government
- ◆ With all the technological powers we possess, we must push for a safer solution to eradicate nuclear waste

So, for our children and the many new generations to come, Please oppose the construction and utilization of The Yucca Mountain Repository.

Thank you,

*Martha R. Williams*
